Vahid Alizadeh

Guilan, Rasht, Iran | +989221528452 | vahidalizadeh1990@gmail.com

Education

Bachelor – Software Engineering | SEP 2010- JAN 2015 | Islamic Azad University | Iran, Lahidjan

Master – Artificial Intelligence | SEP 2015 – MAY 2019 | Islamic Azad University | Iran, Lahidjan

Thesis Subject: Detecting phishing websites using Ensembles algorithm XGBoost and Bagging trees

Work Experience

SDCIran Iran, Rasht| Asp.net developer | OCT 2011 – MAY 2014 - SdcIran.com

- Responsible for Continuous Improvement projects and the .NET applications.
- Developed Web applications using the .NET framework and ADO.NET.
- Improved existing codes using SOLID principles and Design Patterns like Singleton and abstract factory

Full-stack developer | Self-Employed| May 2014

- Implementation and development process of any web applications or APIs from scratch that includes the front-end and back-end sections.
  ### Surfbrandz online boutique
  Tools, Framework, and Technologies: .Net core, C#, JQuery, Ajax, Bootstrap, Repository pattern, Entity framework, Auto Mapper, Asp.net core Identity, Html, CSS.
  ### ONLINE CLASSROOM
  Tools, Framework, and Technologies: .Net core Web API, C#, NodeJs, JavaScript, ReactJs, React Hooks, Twilio API, Firebase Authentication system, Entity Framework, AuthoMapper, Repository Pattern, CI/CD pipelines on Heroku, Bootstrap, HTML, CSS.

  ### GameReview

  Tools, Framework, and Technologies: .Net core Web API, C#, JavaScript, ReactJs, React Hooks, Repository Patterns, CI/CD pipelines on Firebase, Bootstrap, HTML, CSS, JWT, Asp.net core Identity, Entity Framework, AuthoMapper.

Skills & Abilities

languages

- English: Fluent
- Persian: Mother's tongue

Technical skills

- .Net framework (.net core MVC, .net core API, Winforms)

- Expert in languages in order (C# - JavaScript - python)

- Entity framework and familiar with dapper.

- Front-end skills like (JQuery, Ajax, ReactJs, NextJs, HTML, CSS, and Bootstrap)

- Docker, Kubernetes, Azure DevOps, Git & GitHub, CI/CD Pipelines

- Databases SQLServer and MySQL, DDL (Create, Alter, DROP, …) and DQL (Select), and DML (Insert, Update, Delete).

- OOP and Familiar with design patterns like Factory and abstract factory, Singleton, Prototype, Bridge, Decorator.

- SOLID principals and repository pattern and dependency Injection.

- Microservices architecture and services buses like RabbitMQ and gRPC to make communication between two completely different apps.

- Blazor and SignalR

- Authentication and Authorization process (JWT and Asp.net core Identity)

Personal skills

- Ability to develop and implement applications life-cycle from scratch.

- Ability to find the solutions and make a choice between those.

- Ability to collaborate with other members of a team to manage the structure of the applications to implement better code.

- Extremely passionate about learning new technology, libraries, and frameworks to improve my skills as a full-stack developer

- Solid Presentation skills
